

PLANTING INSTRUCTIONS

"HEELING IN"

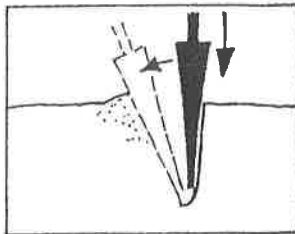

1 DIG A V-SHAPED TRENCH IN A MOIST, SHADY PLACE.

2 BREAK BUNDLES OF SEEDLINGS AND SPREAD OUT EVENLY.

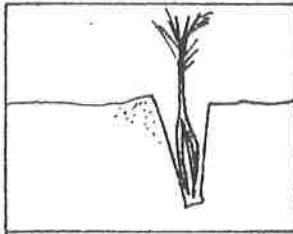

3 FILL IN LOOSE SOIL AND WATER TO INSURE FRESH, LIVELY PLANTS.

4 FIRM SOIL WITH FEET, WORKING MAINLY WITH THE HEEL.

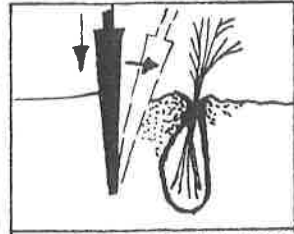

PLANTING WITH THE DIBBLE-BAR

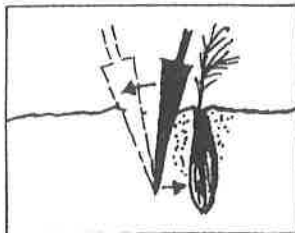

1. Insert DIBBLE-BAR straight down, as shown. Pull backward to open hole.

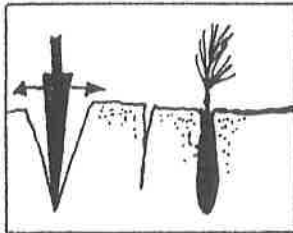

2. Remove DIBBLE-BAR and place SEEDLING in hole at correct depth.

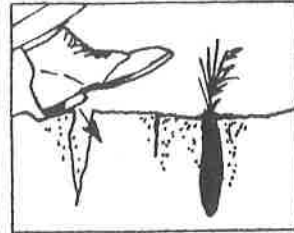

3. To hold SEEDLING in place, insert DIBBLE-BAR and push forward.

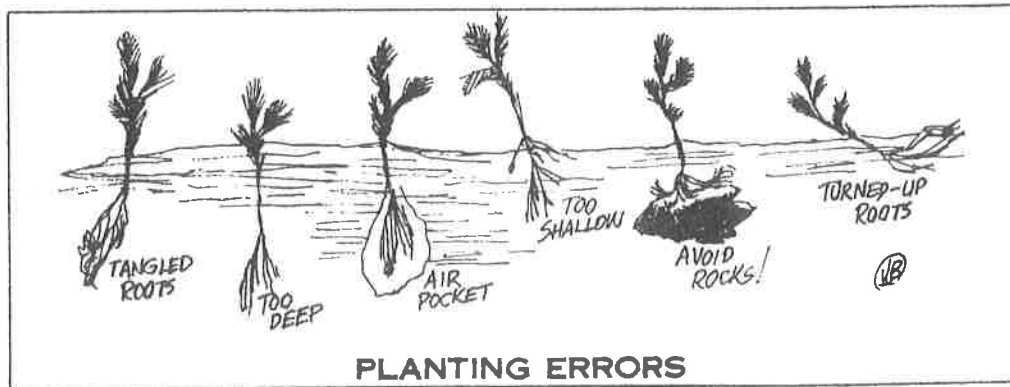

4. Now pull DIBBLE-BAR backward to close bottom of hole. (No air-pocket.)

5. Move DIBBLE-BAR back 6" from first hole, insert and rock back + forth.

6. When original hole is closed, fill in last hole by firming in with heel.
